

## SLOTS / VIDEO POKER

*Reel Slots • Video Slots*  
*Progressive Slots • Video Poker*

Want to play slots? Take your pick of the incredible selection of slot games at FireKeepers Casino. Whether you want to play our collection of penny machines or cozy up in the High Limit area, we'll be sure to keep your seat warm and the jackpots waiting. Look for some of these top games: Fort Knox, Hot Shot, Jaws, Sopranos, Star Wars, Wizard of Oz and Monopoly Money Grab.

Why? Well, part of the attraction of slots is the many different versions of the games offered. The innovative variations in rules and gameplay means new games are constantly being released and offer something new and unique, while exciting graphics and sounds add to the overall gaming experience.

Slot games offer the attractive prospect of winning the biggest jackpots around. Slots pay out bigger jackpots than any other casino game offered!

All slot games have the same concept: spin the reels. If symbols line up to form a winning combination when they stop – a payout is due to you, the player. The more lines and coins you are betting, the more money you will win. We offer three and five-reel slots with pay lines ranging from one up to a massive 40!
