

THREE CARD POKER PROGRESSIVE™

Three Card Poker Progressive™ enhances the highest-winning, most popular specialty game of all time with an optional \$1 progressive wager. It features head-to-head play against the dealer, a Pair Plus bonus bet and the \$1 progressive wager.

Getting Started

To begin each round, players must make their standard Three Card Poker Progressive™ wagers and the \$1 progressive wager. The dealer then follows house procedures for Three Card Poker Progressive™. If a player's hand qualifies for payouts, they win according to the posted pay table. If a player makes the progressive wager and their hand does not qualify for payouts, they may still win the Envy Bonus payout if at least one player has AKQ suited. A player cannot win Envy Bonuses for his own hand or the dealer's.

Winning and Losing

If a player gets AKQ spades, it triggers the progressive jackpot. Straight flushes and three-of-a-kinds trigger a flat payout off the meter.
